Motic Xiamen | Headquarters

Motic®

Motic was established in 1988 as a hi-tech industrial enterprise specialized in manufacturing conventional compound microscopes. Since then, the company has grown into a global brand with sales offices in Canada, Germany, Hong Kong, Spain and the United States.

Our manufacturing base in China consists of four wholly-owned factories with Motic Xiamen acting as the production and design headquarters of the company. Xiamen's Research and Development centre has over 100 professional engineers and technicians covering optical, mechanical, industrial, electronic and software design. Today, Motic's dedicated team members of more than 2000 individuals are ready to assist you in finding competitive solutions.

During the late 1990s, the company started to explore and develop affordable digital microscopy solutions consisting of imaging hardware and application software. This has proven to be a worthwhile investment turning Motic into one of the leading brand names of digital microscopy products.

MORE THAN

EUROPEAN DIVISION

With the aim of giving the best support and establishing long term relationships with Motic users we employ qualified staff and specialists in this sector, with the add-on of multilingual capability from our entire Team. We have structured our organization on the basis of Market Teams which provides a personalized service to our clients.

The European Division of Motic consists of two offices: a Sales Office located in the city of Wetzlar (Germany) - known worldwide as center of optics and precision mechanics - meanwhile the European Headquarter and Distribution Centre is located in Barcelona (Spain).

Over the years we have built up excellent long term relations with our dealers, whom assist and support us on a daily bases in meeting the requirements of our users and in increasing the knowledge of the reliability & quality of Motic products.

Your Motic Europe Team

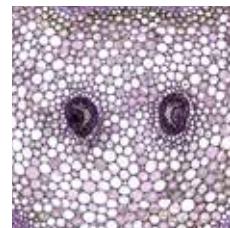

MICROSCOPY

EDUCATION

Motic's complete range of Educational Compound and Stereo microscopes are designed to cover the needs of educators as well as hobbyists.

LIFE SCIENCES

For Universities, Laboratories and Hospitals Motic offers a complete range of up-right and inverted microscopes.

INDUSTRY

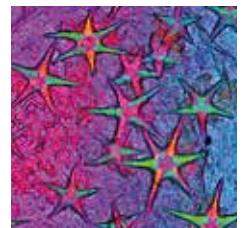

Our optical solutions, combined with our digital cameras and software, provide you with a complete range of product that can be used for multiple industrial applications.

DIGITAL SOLUTIONS

Motic is one of the first microscope manufacturers who started to develop digital microscopy solutions, digital imaging products and application software.
